Cuba's Corn Crops. Four crops of corn are produced yearly in Cuba. The first crop is planted in December, and the fourth crop is harvested in December.

Pitchblende. Pitchblende, so valuable to scientists because of the radio activity metal it contains, is found in Saxony and Cornwall and is a mineral made up of 80% per cent of oxide of uranium, 2% black oxide of iron, galena and silice.

Surgeons' Stitches. Silk twist is only one of two or three dozen stitching materials used by surgeons, fine silver wire and the use of so called catgut being the more commonly used. The advantage of the latter is that they do not have to be removed and are absorbed by or built into the wound.

Hotels in Switzerland. About 27,000 persons are employed in the 1,271 hotels for tourists in Switzerland.

Negro Mortality. The mortality in the colored population of the United States is nearly double that of the white population. Native white stock has the advantage of foreign-white stock at most ages above infancy.

The Latest Neck Chains. Some of the latest neck chains, says the New York Mail and Express, are made long enough to be knotted in the first twist around the neck and still have ample length to hang down with a fanciful pendant at the end of it.

Special for this evening only. Segel & Brady at the Blue Store, offer for tomorrow as a special leader, 40 mens' and boys' light coats, in plain black, black and white stripes, plain linen color and several other colors suitable for the shop and office, worth from 50c, 75c and \$1.00, to close the lot at 39c each.
